

## Sydney Motor Show (October 2004)

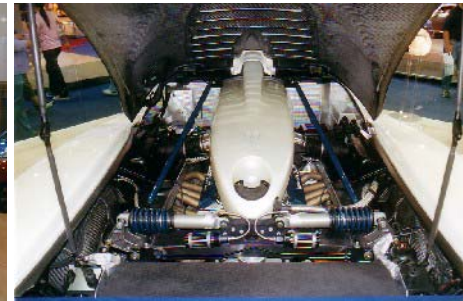

A regular event that we all look forward to is the Sydney Motor show. In the 13 or so years that I have owned a Maserati the quality of the Motor Show stand that Tony puts together has just got better and better. This year was no exception with a great display of cars and a fantastic stand...having said that I must say that I do miss the 3m high well endowed statue of Poseidon that adorned the stand I think it was in 1998...

*The red Spyder that Catherine purchased which is also featured later in the newsletter*

*New GranSport in a bright blue*

*The stand featured the MC-12 and new GranSport*
